

Intern (IT) System Administrator

Part time (10 -20h/week)

Nabriva Therapeutics is committed to researching and developing new antibiotics to treat infectious diseases. Our dedicated team includes people with extensive science and industry experience and a shared passion for addressing the increasingly urgent problem of bacterial resistance worldwide.

Nabriva is a commercial-stage biopharmaceutical company with locations in the United States (King of Prussia, PA), Austria (Vienna), and Ireland (Dublin), home of our corporate headquarters.

For our facility in Vienna we are looking for an Intern (IT) System Administrator, who is responsible for 1st and 2nd level technical support and providing assistance during implementation of complex projects, as well as for maintaining and monitoring the equipment on site. This role supports our internal IT department and is ideal for getting in touch with the real-world tasks and putting hands-on (and practicing all the theory and practical experience) work in a modern environment using state of the art technology.

Profile / Tasks:

- Assistance and support of users (by phone, in person or remotely)
- Recording and maintaining documentation in the ticketing system (building and maintaining knowledge base)
- Building, maintaining and moving workplaces
- Installation and maintenance of client systems
- Support in implementation of projects
- Team player

Requirements:

- Ongoing IT education with focus on IT Support, System & Network Administration
- Good German and English skills (both written and oral)
- Willingness to learn
- Client oriented
- Communication skills

Based on the collective bargaining agreement, the full-time monthly base salary is €2.280,00.

If you are interested, please send us your CV and letter of motivation in English to careers.at@nabriva.com.
